## **Apply to: Backend Developer position**

Dear Recruiter,

I am pleased to find your job description for Backend Developer position on HDWEBSOFT. I feel that it is direct match with my qualifications and experience.

I have experience in developing backend for our school project with SpringBoot 3, I developed backend with Rest APIs for frontend developer to integrate to the UI. I have some basic knowledge about JPA, JWT, MySQL, and some some basic knowledge about frontend such as ReactJS, Zustand, Zod and Tanstack Query. While developing the project, I have used some GIT basic to control the source code between versions and among team members.

I'm fresh and I have eager to learn more in this industry, I want to contribute to the development of the company as well as bringing valuable products for customers.

Sincerely,

Bui Hoang Huy
